Re: Planning Application Reference 21/02464/STFUL

For Rathlin Energy to construct an extension to West Newton A wellsite...

Name*:

Address*:

I am: a member of the public a business / an organisation

I OBJECT to the development on the grounds of: (Tick all that apply)

Noise Light Vibrations Visual impact because

Odours because

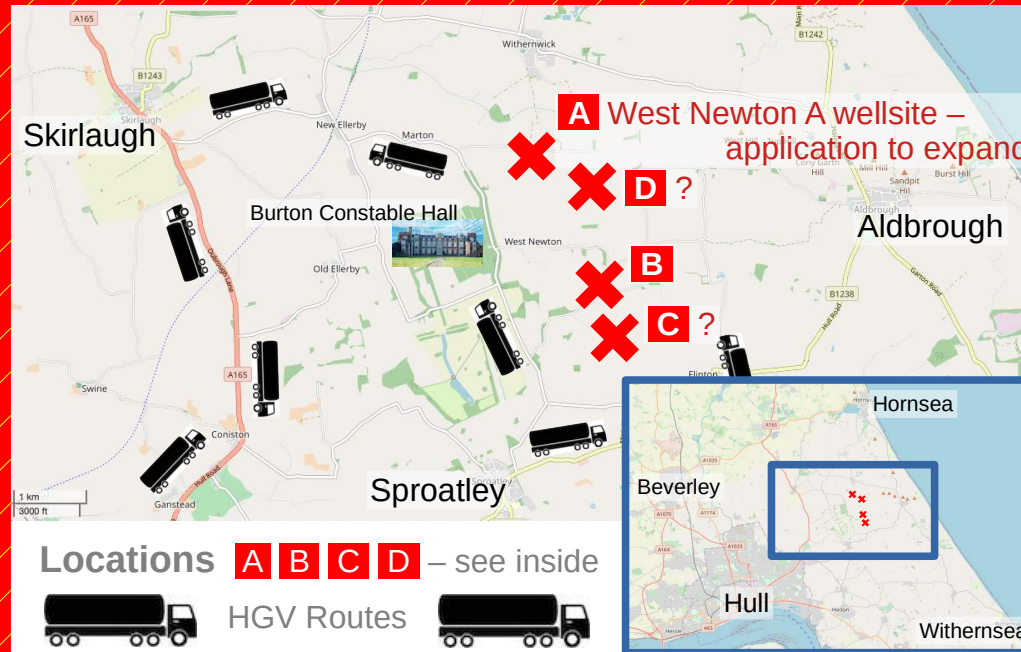

Loss of farmland / ecological habitat because

Large increase in traffic Road safety Air pollution because

Climate change because

the nature of the proposal is inappropriate because

..... (use extra pages as needed)

Impacts include

- **Traffic** 200,000 HGV trips on roads which are not wide or safe enough for their use, putting cyclists, horse riders, walkers and other motorists at risk, and diesel pollution along the whole route
- **Industrialisation** The destruction of our green and pleasant land. No longer areas of tranquility, clean air and beautiful countryside, but an industrial area with pollution from noise, light, vibration, noxious odours & fumes, etc.
- **Climate change** A Climate Emergency has been declared both nationally and locally, we should not be drilling for new sources of fossil fuels.
